“ This is for Hunter, your sweet mama was a patient of mine at Northside. I was her physical therapist from time to time. I have a special memory to share with you to let you know your mom was so caring and thoughtful. In June, my mother was at Gadsden Regional in ICU. One night during visitation time at 8:30pm, I went to get my mother a rag and saw your mom in the room next to her and went over to say hello to her since I knew her and asked her how she was doing. A few weeks later, my Mother was moved to MICU and passed away. When I went back to Northside to work. Your mom was back there & told me that she would hear my mom rattle her bed rail (she was scared) and she would yell through the wall and pray for her and sing to her. I told your mom that it meant so much to me that she was reaching out to my mother to comfort her. And now they're both in heaven running on streets of gold & having the best times of their lives With Jesus. I'm so thankful my mother is no longer suffering at the same time my heart aches and breaks and Graves for her wanting her. So I can be empathetic with what you're going through right now because I just went through it June 14. Praying for you sincerely, Rhonda Jenkins (Someone please make sure Hunter reads this.)
